

AGEING SKIN: Insights and Interventions

Objectives

Ageing Skin: insights and interventions is being held in association with the British Cosmetic Dermatology Group. This conference is one of the first to address both the science of skin ageing at the molecular and cellular levels, in addition to cutting-edge therapies and treatment options.

It is a unique opportunity for those interested not only in the practical aspects of facial rejuvenation, but the pathomechanisms of ageing skin.

Delegates will benefit from:

- Advances in the science of skin ageing
- Age-related effects on skin immunity
- Wound repair in ageing skin
- Update on laser treatments for skin rejuvenation
- Cosmeceuticals and topical rejuvenation
- An overview of intradermal fillers
- A comparison of botulinum toxin
