Example	3.11	My comments are as followsō
Proformas that are not correctly completed as detailed in the example line above may be returned to you to amend		
1.	General	This process will undoubtedly raise standards and widen involvement of stakeholders in the production of guidance. However this document is difficult to comment on as much depends on how the accreditation criteria are interpreted.
2.	General	The process to become an accredited guidance producer with 25 criteria in 6 domains seem unnecessarily wieldy and could deter applications.
