

NATIONAL INSTITUTE FOR HEALTH AND CARE EXCELLENCE

Proposed Single Technology Appraisal

Dupilumab for treating adults with moderate to severe atopic dermatitis [ID1048]

Consultee and commentator comment form

Please use this form for submitting your comments on the draft remit, draft scope and provisional matrix of consultees and commentators. It is important that you complete and return this form even if you have no comments otherwise we may chase you for a response.

Enter the name of your organisation here:

Comments on the draft remit and draft scope

The draft remit is the brief for a proposed appraisal. Appendix B contains the draft remit. The draft scope, developed from the draft remit outlines the question that the proposed appraisal would answer.

Please submit your comments on the draft remit and draft scope using the table below. **Please take note of any questions that have been highlighted in the draft scope itself** (usually found at the end of the document).

If you have been asked to comment on documents for more than one proposed appraisal, please use a separate comment form for each topic, even if the issues are similar.

Please complete this form and upload it to NICE Docs by **Friday 17 February 2017**. If using NICE docs is not possible please return via email to scopingta@nice.org.uk If you have any questions please contact Michelle Adhemar, Project Manager on 44 (0)20 7045 2239 or at the email address above.

If you do not have any comments to make on the draft remit and draft scope, please state this in the box below.

Comment 1: the draft remit

Section	Notes	Your comments
Appropriateness	<i>It is important that appropriate topics are referred to NICE to ensure that NICE guidance is relevant, timely and addresses priority issues, which will help improve the health of the population. Would it be appropriate to refer this topic to NICE for appraisal?</i>	Yes Dupilumab is aimed at patients who resistant to atopic eczema requiring systemic treatment.
Wording	<i>Does the wording of the remit reflect the issue(s) of clinical and cost effectiveness about this technology or technologies that</i>	

Comments received in the course of consultations carried out by NICE are published in the interests of openness and transparency, and to promote understanding of how recommendations are developed. The comments are published as a record of the submissions that NICE has received, and are not endorsed by NICE, its officers or advisory committees.

Section	Notes	Your comments
	<i>NICE should consider? If not, please suggest alternative wording.</i>	
Timing Issues	<i>What is the relative urgency of this proposed appraisal to the NHS?</i>	
Any additional comments on the draft remit		

Comment 2: the draft scope

Section	Notes	Your comments
Background information	<i>Consider the accuracy and completeness of this information.</i>	
The technology/intervention	<i>Is the description of the technology or technologies accurate?</i>	
Population	<i>Is the population defined appropriately? Are there groups within this population that should be considered separately?</i>	
Comparators	<i>Is this (are these) the standard treatment(s) currently used in the NHS with which the technology should be compared? Can this (one of these) be described as 'best alternative care'?</i>	<ul style="list-style-type: none"> • PUVA has limited place in management of atopic dermatitis. <p>We agree with the other suggested comparators but many of them have limitation.</p> <ul style="list-style-type: none"> • Ciclosporin is not a long term option due to potential side effects. • Azathioprine can be effective but carries unacceptable long term side effects. • Methotrexate is increasingly used in patients with atopic dermatitis unresponsive to topical treatment. • Alitretinoin can be considered as a comparator for dupilumab in people with atopic dermatitis affecting the hands.
Outcomes	<i>Will these outcome measures capture the most important health related benefits (and harms) of the technology?</i>	<p>Additional outcomes that should be considered includes:</p> <ul style="list-style-type: none"> • Time of work • Infections

Section	Notes	Your comments
		<ul style="list-style-type: none"> • Hospital admissions • Impact on family members/carers • Impact on associated atopic disease (asthma) <p>Be aware of skin type iv- vi - disease severity scores may underestimate disease severity (not picking up erythema) – consider stratifying for ethnicity/skin type.</p>
Economic analysis	<i>Comments on aspects such as the appropriate time horizon.</i>	
Equality	<p><i>NICE is committed to promoting equality of opportunity, eliminating unlawful discrimination and fostering good relations between people with particular protected characteristics and others. Please let us know if you think that the proposed remit and scope may need changing in order to meet these aims. In particular, please tell us if the proposed remit and scope:</i></p> <ul style="list-style-type: none"> • <i>could exclude from full consideration any people protected by the equality legislation who fall within the patient population for which [the treatment(s)] is/are/will be licensed;</i> • <i>could lead to recommendations that have a different impact on people protected by the equality legislation than on the wider population, e.g. by making it more difficult in practice for a specific group to access the technology;</i> • <i>could have any adverse impact on people with a particular disability or disabilities.</i> <p><i>Please tell us what evidence should be obtained to enable the Committee to identify and consider such impacts.</i></p>	
Other considerations	<i>Suggestions for additional issues to be covered by the proposed appraisal are welcome.</i>	
Innovation	<p><i>Do you consider the technology to be innovative in its potential to make a significant and substantial impact on health-related benefits and how it might improve the way that current need is met (is this a 'step-change' in the management of the condition)?</i></p> <p><i>Do you consider that the use of the technology can result in any potential significant and substantial</i></p>	<p>Yes</p> <p>It offers potential significant and substantial health-related benefits. The NICE QALY calculation should pick up the wider benefits of dupilumab.</p>

Comments received in the course of consultations carried out by NICE are published in the interests of openness and transparency, and to promote understanding of how recommendations are developed. The comments are published as a record of the submissions that NICE has received, and are not endorsed by NICE, its officers or advisory committees.

Section	Notes	Your comments
	<p><i>health-related benefits that are unlikely to be included in the QALY calculation?</i></p> <p><i>Please identify the nature of the data which you understand to be available to enable the Appraisal Committee to take account of these benefits.</i></p>	
<p>Questions for consultation</p>	<p><i>Please answer any of the questions for consultation if not covered in the above sections. If appropriate, please include comments on the proposed process this appraisal will follow (please note any changes made to the process are likely to result in changes to the planned time lines).</i></p>	<ul style="list-style-type: none"> • Are there any subgroups of people in whom dupilumab is expected to be more clinically effective and cost effective or other groups that should be examined separately? <ol style="list-style-type: none"> 1. Possibly eczema at different sites eg photoaggravated eczema, hand eczema. 2. Severe eczema being controlled with interventions that are causing significant side effects/sequelae (eg steroids and osteoporosis; ciclosporin and nephropathy etc). 3. Those with other atopic disease (eg asthma) where dupilumab also has efficacy. • Where do you consider dupilumab will fit into the existing NICE pathway, treating eczema in people over 12? <p>Dupilumab is aimed at patients whose eczema is not controlled with standard therapy; after topical steroids, topical tacrolimus, and phototherapy.</p>
<p>Any additional comments on the draft scope</p>		

Comment 3: provisional matrix of consultees and commentators

The provisional matrix of consultees and commentators (Appendix C) is a list of organisations that we have identified as being appropriate to participate in this proposed appraisal. If you have any comments on this list, please submit them in the box below.

As NICE is committed to promoting equality and eliminating unlawful discrimination Please let us know if we have missed any important organisations from the lists contained within the matrix, and which organisations we should include that have a particular focus on relevant equality issues.

If you do not have any comments to make on the provisional matrix of consultees and commentators, please cross this box:

Comments on the provisional matrix of consultees and commentators

Comment 4: regulatory issues (to be completed by the company that markets the technology)

Section	Notes	Your comments
Remit	<i>Does the wording of the remit reflect the current or proposed marketing authorisation? If not, please suggest alternative wording.</i>	
Current or proposed marketing authorisation	<i>What are the current indications for the technology?</i>	
	<i>What are the planned indications for the technology?</i>	
	FOR EACH PLANNED INDICATION:	
	<i>Which regulatory process are you following?</i>	
	<i>What is the target date (mm/yyyy) for regulatory submission?</i>	
	<i>What is the anticipated date (mm/yyyy) of CHMP positive opinion (if applicable)</i>	
	<i>What is the anticipated date (mm/yyyy) of regulatory approval?</i>	
	<i>What is the anticipated date (mm/yyyy) of UK launch?</i>	
	<i>Please indicate whether the information you provide concerning the proposed marketing authorisation is in the public domain and if not when it can be released. All commercial in confidence information must be highlighted and</i>	

Comments received in the course of consultations carried out by NICE are published in the interests of openness and transparency, and to promote understanding of how recommendations are developed. The comments are published as a record of the submissions that NICE has received, and are not endorsed by NICE, its officers or advisory committees.

Section	Notes	Your comments
	<i>underlined.</i>	
Economic model software	<i>NICE accepts executable economic models using standard software, that is, Excel , DATA, R or WinBUGs. Please indicate which software will be used. If you plan to submit a model in a non-standard package, NICE, in association with the ERG, will investigate whether the requested software is acceptable, and establish if you need to provide NICE and the ERG with temporary licences for the non –standard software for the duration of the appraisal. NICE reserves the right to reject economic models in non-standard software</i>	

Please complete this form and upload it to NICE Docs by **Friday 17 February 2017**. If using NICE docs is not possible please return via email to scopingta@nice.org.uk If you have any questions please contact Michelle Adhemar, Project Manager on 44 (0)20 7045 2239 or at above the email address.
