Acute and General Medicine
Monday 25 – Thursday 28 May 2020  

Who should attend?
As well as being of value to hospital based doctors at consultant or senior trainee level, it will also be of interest to:

- Community based doctors
- General practitioners
- Allied health professionals
- Specialist nurses

Delegates can select which day to attend or sign up for the full four-day course.

How to book
Full details on programme, course fees and online booking at: events.rcpe.ac.uk

An early bird discount will be available until Sunday 19 April 2020

Aims of course
This four-day course is designed for health care practitioners from the UK and beyond, and aims to give a broad update on important aspects of acute and general medicine. The course will include lectures by experts on topics of current and practical relevance, with frequent opportunities for interactive case-based learning. This year the course will consist of eight sessions over four full days, in:

- Cardiology
- Respiratory
- Acute Emergencies
- Infectious diseases
- Rheumatology
- Dermatology
- “A phone call from the laboratory”
- Stroke
- Toxicology
