Vascular Anomalies and Overgrowth Workshop

**Poster
Deadline for
submission:
17/02/2019**

**Prize
for best
trainee
poster**

**UCL Great Ormond Street
Institute of Child Health, London**

Structure of Course:

This one day workshop includes topics relevant to the diagnosis and management of vascular anomalies and overgrowth from the perspective of a range of specialities, with ample opportunities for discussion.

Topics to be covered:

Summary of classification, medical treatments, genetics.
Update on haemangiomas.
Multidisciplinary management of head and neck, visceral and extremity vascular malformations, as well as overgrowth.

Why you should attend:

There remain many areas of diagnostic confusion within the field of complex vascular anomalies and overgrowth, and substantial areas of uncertainty about the best approach to investigation and management of many of these conditions. This workshop aims to provide a basis for collaborative working within the UK to increase knowledge and so to improve the care provided to patients.

Who should attend:

All those involved in the diagnosis and management of complex vascular anomalies and overgrowth including interventional radiologists, plastic and reconstructive surgeons, orthopaedic surgeons, haematologists, dermatologists, general surgeons, paediatricians, clinical geneticists, ENT surgeons, ophthalmologists, maxillofacial surgeons, and allied health professionals.

Registration and fees:

Early Bird (until 11th April 2019)

£110 Early bird

£70 Early bird Trainee/Allied Health
Care Professionals

After Early Bird

£150 Standard

£90 Standard Trainee/Allied Health
Care Professionals
