### Pressure Ulcers

## Stakeholder Comments – Draft scope

<p><b>Please enter the name of your registered stakeholder organisation below.</b></p> <p><b>NICE is unable to accept comments from non-registered organisation or individuals. If you wish your comments to be considered please register via the <a href="#">NICE website</a> or contact the <a href="#">registered stakeholder organisation</a> that most closely represents your interests and pass your comments to them.</b></p>		
<b>Stakeholder organisation:</b>	British Association Of Dermatologists	
<b>Name of commentator:</b>	<b>Dr Jenny Hughes</b> Chair, Therapy & Guidelines Subcommittee on behalf of the committee.	
<b>Comment No.</b>	<b>Section number</b> <small>Indicate <b>number</b> or <b>'general'</b> if your comment relates to the whole document</small>	<b>Comments</b>  Please insert each new comment in a new row.  Please do not paste other tables into this table, as your comments could get lost . type directly into this table
Example	3.4.6	Our comments are as follows ò ò ò .
Proformas that are not correctly submitted as detailed in the line above may be returned to you		
1	General	Heel and sacral pressure ulcers need to be singled out as common and important areas susceptible to pressure ulceration.
2	General	Patients on intensive care units are in the at-risk group.
3	General	The role of lubricants and emollients in the prevention of pressure ulcers needs to be addressed.
4	General	The impact of nursing staffing levels in wards and nursing homes undoubtedly have an impact on the incidence of pressure ulcers, can this be quantified?
5	General	Does the implementation of strict turning policies make a difference?
6	General	Comments on the different dressings and mattresses available and any evidence on efficacy should be included.
7	General	Mention of larval therapy for deep necrotic ulcers when surgical debridement cannot be performed should also be mentioned as an option in the treatment section.
8	General	It needs to be made clear that ischaemic lower leg ulceration is being excluded from this sub group.

Please add extra rows as needed
