

**Therapy and Guidelines Sub-Committee,
British Association of Dermatologists**

**Comments on the final appraisal determination
relating to the use of golimumab for the treatment of
psoriatic arthritis.**

The Therapy & Guidelines and the Biologics Register sub-committees of the British Association of Dermatologists (BAD) have reviewed this final appraisal determination produced by NICE on the use of golimumab for the treatment of psoriatic arthritis. No suggestion that the BAD should appeal against the guidance contained within this technology appraisal was made. Furthermore, no factual inaccuracies within the technology appraisal were highlighted.
