List of theses

(in chronological order based on date of submission or award):

Hodgson C.A. A dissertation on cheiropompholyx in industry. D.M. Thesis (Oxford), 1939.

Samman P.D. Hodgkin's disease with special reference to the skin changes found therein. M.D. Thesis (Cambridge), 1948.

Rook A.J. Bullous eruptions. M.D. Thesis (Cambridge), 1950.

Gold S.C. The pathogenesis of systemic lupus erythematosus. M.D. Thesis (Cambridge), 1951.

Pegum J.S. Protein loss from the skin. M.D. Thesis (Cambridge), 1952.

Naylor P.F.D. The skin and friction. M.D. Thesis (Cambridge), 1954.

Caldwell I.W. Dermatomyositis. Chesterfield medal essay (Aberdeen), 1955.

McCallum D.I. Histopathogenesis of eczema. M.D. Thesis (Edinburgh), 1955.

Lyon J.B. Dermatitis due to synthetic detergents. M.D. Thesis (Cambridge), 1957.

Wilson H.T.H. Exfoliative dermatitis with special reference to its aetiology. M.D. Thesis (Cambridge), 1957.

Evans C.D. Turban tumour. M.D. Thesis (Cambridge), 1960.

Senter G.W. Essays in lamination, 1960.

Smith M.A. Hospital infections, with particular reference to the spread of Staphylococcus aureus in a surgical ward, and some tests of three types of surgical mask. D.M. Thesis (Oxford), 1960.

Williamson D.M. The problem of industrial dermatitis in the coal mineworker. M.D. Thesis (Leeds), 1962.

Wood S.R. Clinical and laboratory studies of hypersensitivity to trichophytin. M.D. Thesis (Birmingham), 1962.

Tighe S.M. A genetic survey of psoriasis. M.D. Thesis (Sheffield), 1963.

Baker H. The relationship between psoriasis, psoriatic arthritis and rheumatoid arthritis: an epidemiological, clinical and serological study. M.D. Thesis (Leeds), 1965.

- Cripps D.J.** Erythropoietic protoporphyria. M.D. Thesis (London), 1965.
- Wells R.S.** A clinical and genetic study of ichthyosis in five counties in England. M.D. Thesis (London), 1965.
- Greaves M.W.** The role of the basophil leucocyte in anaphylaxis. Ph.D. Thesis (London), 1967.
- Grice K.A.** Transepidermal water loss. M.D. Thesis (London), 1967.
- Marks J.M.** Systemic effects of skin disease with particular reference to the small intestine. D.M. Thesis (Oxford), 1968.
- Black M.M.** Skin collagen and thickness in normal adults and in those with endocrine gland disorders. M.D. Thesis (Newcastle upon Tyne), 1970.
- Burton J.L.** Sebaceous glands: some observations on their physiology and pathology in man. M.D. Thesis (Manchester), 1971.
- Verbov J.L.** Dermatoglyphic and other findings in health and disease. M.D. Thesis (Liverpool), 1971.
- Copeman P.W.M.** Pathogenesis of cutaneous angitis, particularly those rashes attributed to drugs and infections. M.D. Thesis (Cambridge), 1972.
- James J.** The prevalence and nature of diseases of the skin in Uganda. M.D. Thesis (Bristol), 1973.
- Morrison W.L.** Immunological aspects of human papova (wart) virus infections. M.D. Thesis (Sydney), 1974.
- Gilkes J.J.H.** Studies on the immunoreactive melanotropic peptides in human plasma. M.D. Thesis (London), 1975.
- Goolamali S.K.** Human sebaceous function: observations in certain endocrine and non-endocrine disorders. M.D. Thesis (London), 1975.
- Munro D.D.** Percutaneous absorption in humans with particular reference to topical steroids and their systemic influence. M.D. Thesis (London), 1975.
- Ben Halim M.M.** A study of the relationship between androgens, coronary thrombosis and the skin. M.D. Thesis (Bristol), 1976.
- Barnetson R.St C.** A prospective study of borderline leprosy reactions. M.D. Thesis (Edinburgh), 1977.
- du Vivier A.** An animal model for the evaluation of antimetabolic drugs and its use to investigate the phenomenon of acute tolerance (tachyphylaxis) to topical steroids. M.D. Thesis (London), 1977.

Hunter J.A.A. Ultrastructural study of human epidermal dendritic cells under physical stress and after malignant change. M.D. Thesis (Edinburgh), 1977.

Lowe N.J. Epidermal proliferation in essential fatty acid deficiency. M.D. Thesis (London), 1977.

Goodwin P.G. The cell cycle in psoriasis. M.D. Thesis (London), 1978.

Pye R.J. A study of factors affecting sebum excretion and composition in man in health and disease. M.D. Thesis (London), 1978.

Stankler L. Studies in the pathogenesis of psoriasis. The role of the koebner reaction and tissue factors. M.D. Thesis (Aberdeen), 1978.

Camp R.D.R. Prostaglandin catabolism in normal and ultraviolet B irradiated rat skin. Ph.D. Thesis (London), 1979.

Smith A.G. Immunoreactive beta-melanocyte-stimulating hormone in man. M.D. Thesis (Cambridge), 1979.

Simpson N.B. Androgen metabolism in the pilosebaceous unit: a clinical and laboratory study. M.D. Thesis (Cardiff), 1980.
